

Diopeter Strength Chart

The test you are about to take should help you pinpoint the reading magnification that you will need. Please note that this test assumes that you have 20/20 distance vision and is not intended to replace professional eye exams.

It's Easy to Find Your Worksight Diopeter Strength

1. Without using glasses, hold this chart 26" from your eyes (average arm's length).
2. Begin at the top and read the line across. Read the next and so on until you reach the line that is difficult to read.
3. At the end of each line is the diopeter strength you need.

DIOPETER

If this is difficult to read at 26"	+2.50
If this is difficult to read at 26"	+2.00
If this is difficult to read at 26"	+1.50
If this is difficult to read at 26"	+1.00
